

SECRET

OSA-0428-63

23 January 1963

MEMORANDUM FOR: Chief, Personnel Branch, OSA
THROUGH : Chief, Admin, OSA
SUBJECT : Supplementation of Guard Force at
Detachment G by One Additional Con-
tract Guard

25X1 1. In order to provide adequate staffing for the
Security section at Detachment G, I believe it is necessary
to supplement the present staff by the addition of one con-
tract guard, thus bringing up the total number of contract
guards at that location to []

25X1 2. [] contract guards is considered the minimum
number necessary under the present operational concept. If
Det G were to be provided with a dual or triple operational
capability, the need would be increased.

3. I am considering diverting one of the recruits for
the "O" Program contract guard staff to Detachment G.

25X1 4. As an additional facet of this problem, it appears
that [] presently a contract guard at G, will
probably go to H as a contract guard in August 1963 to
replace [] Therefore [] will
25X1 also have to be replaced at G
25X1

5. If there are any questions concerning this matter,
please contact the writer.
